

# Eurocytology

The Eurocytology project is supported by the **Leonardo da Vinci program** with the aim of increasing access to training in clinical cytology and of harmonising training in this important specialty of pathology throughout the EU.

# Kurser

Cervix cytologi

Automation og væskebaseret cyt

Luftvejscytologi

Øre/næse/hals

Lymfeknuder

Mammae

Serøs væsker

Lever

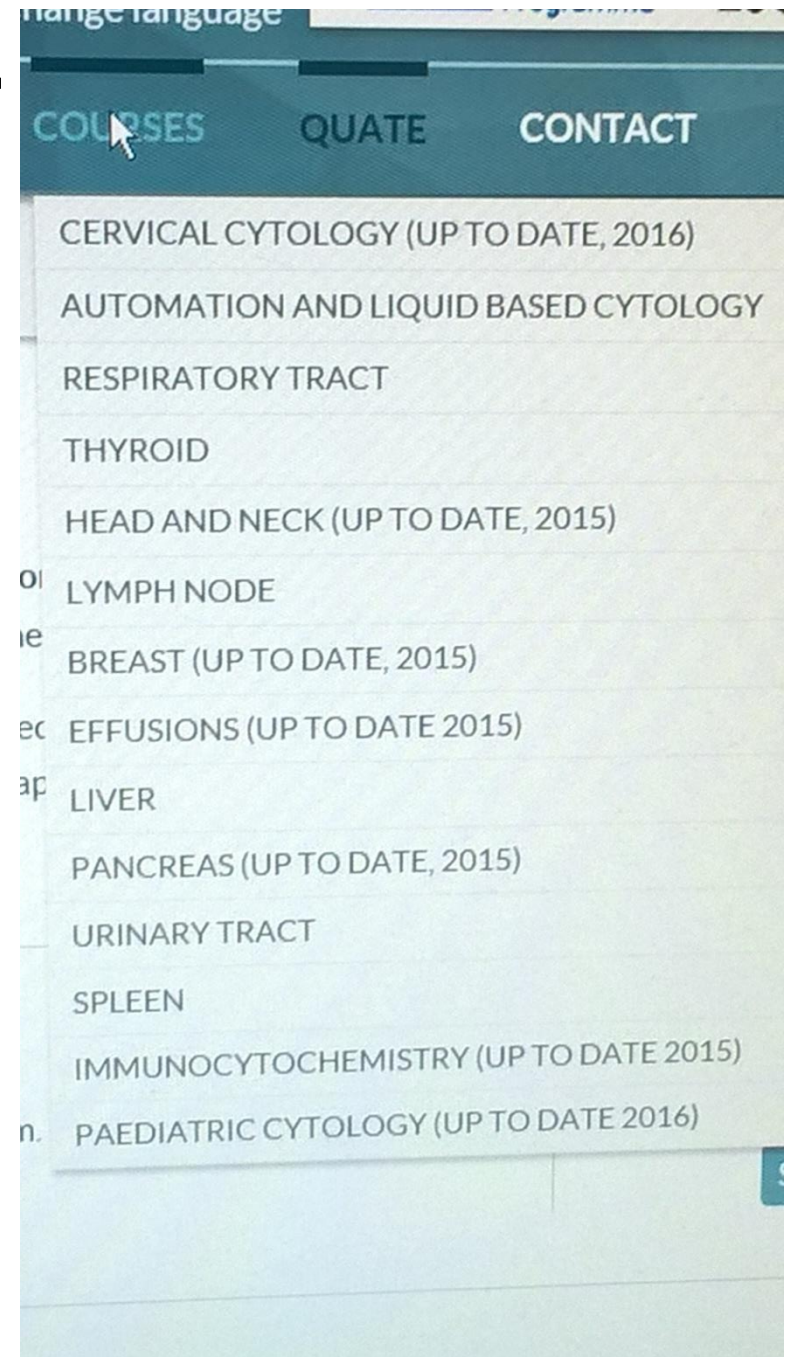

Pancreas

Urinvejene

Milt

Immunocytokemi

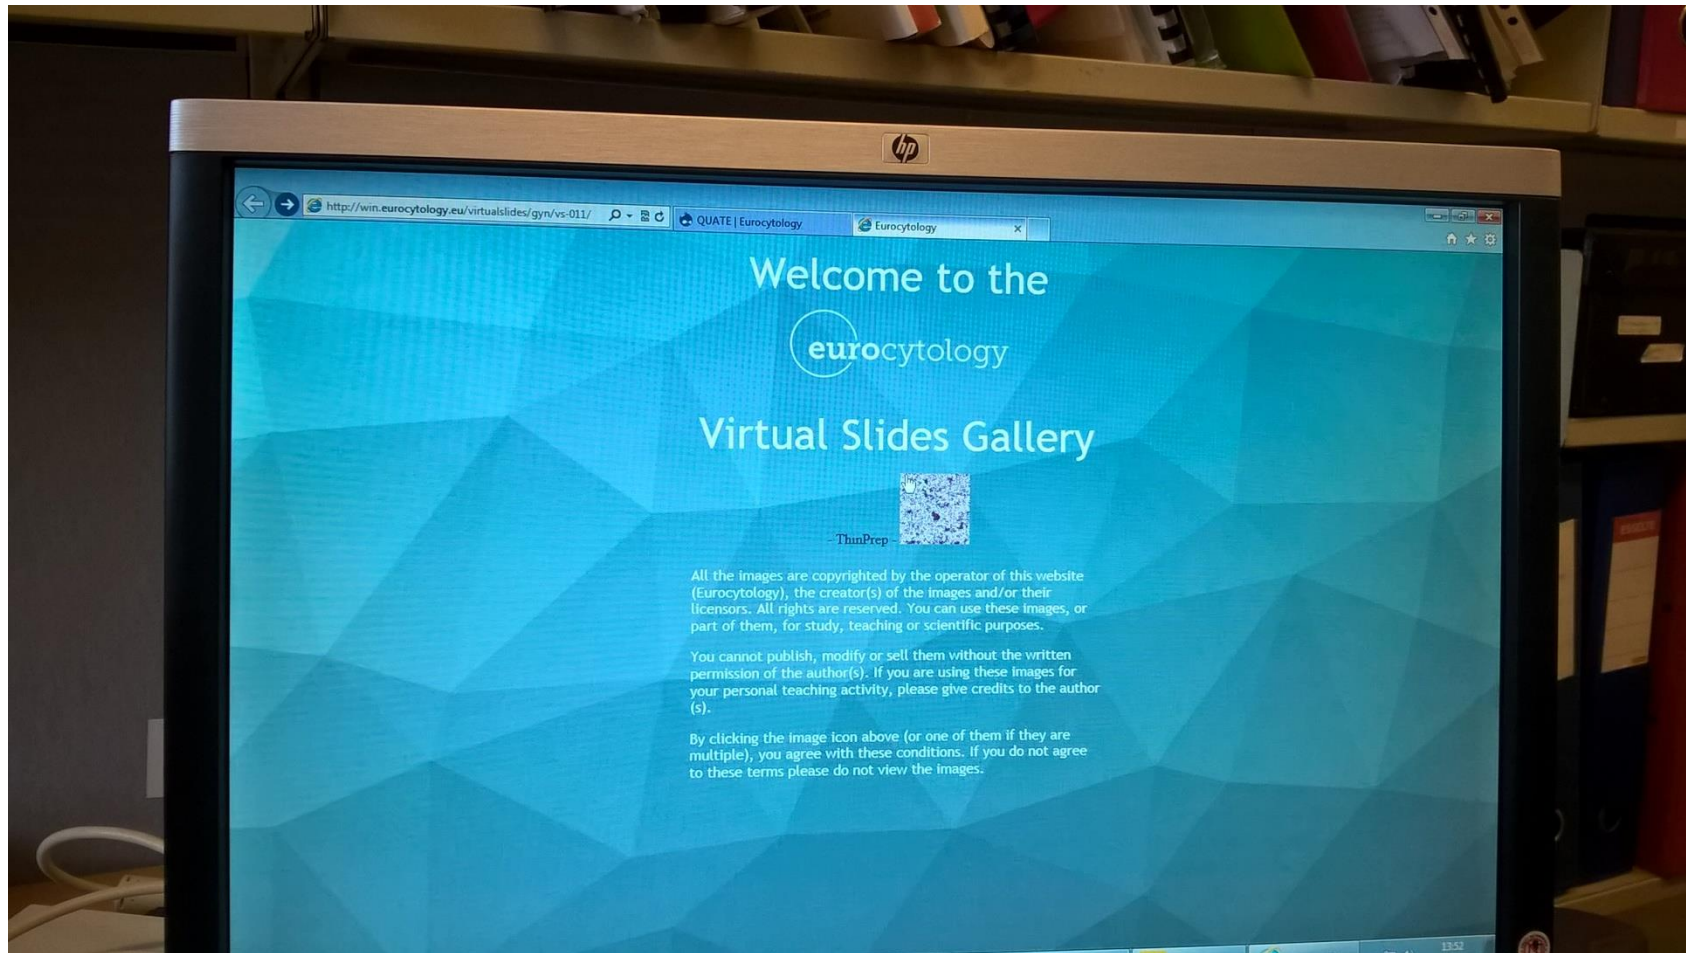

Børne tumorer

# **Cervical cytology (Up to date, 2016)**

Introduction Anatomy, histology and function of the cervix Cervical cancer epidemiology and aetiology Pathogenesis of cervical cancer and its precursors Effect of screening on incidence and mortality Principles of screening and measurement of accuracy HPV tests in cervical cancer screening Collecting cellular samples from the cervix Cervical cytopathology Pitfalls in cytology Quality control Cytology in a multidisciplinary setting

□ Virtuel slides (ThinPrep) kun cervix og thyroidea

□ Self assesment test

# Pancreas - eksempel

The anatomy and histology of the pancreas

Indications of fine needle aspiration slide

Preparation methods

Indications of biliary brushing

The reporting terminology

Cytologic features of benign acinar and ductal epithelial cells

Cytologic features of acute and chronic pancreatitis

Cytologic features of pancreatic pseudocysts

Cytologic features of pancreatic cystic tumors

Cytologic features of pancreatic carcinomas

Cytologic features of endocrine tumors

Features of tumors of the biliary tract

# QUATE

Home » QUATE

**QUATE**

The QUATE (Quality Assurance, Training and Examinations committee) Aptitude Test is an international examination for cytotechnologists who fulfil the criteria for accreditation in their own countries.

It is designed to provide an objective assessment of a cytotechnologist's competence to screen conventional cervical smears or liquid based cytology samples and is available in traditional Papanicolaou, Surepath or Thinprep technologies.
